

# STAMFORD BROOK ~ Evaluating the Impact of an Enhanced Energy Performance Standard on Load-bearing Masonry Domestic Construction

Author: John Haynes<[webcontent@masonry.org.uk](mailto:webcontent@masonry.org.uk)>

This PII project is evaluating the implementation of an advanced energy standard on a large scale housing development. It is being undertaken by the Centre for the Built Environment at Leeds Metropolitan University. For details visit the [CEBE projects website](#) or see page 9 of [NHBC Standards Extra issue 41](#).
