2020 Delivery Plan and Beyond...

Great Britain has a Golden Opportunity to build for the future, creating jobs, growth, a balanced economy and social inclusion. The UK can deliver the world class economic performance we will need to compete in the fast growing global economy.

The outlook for new homes is now very exciting as all three political parties commit to the building of at least 200000 homes per annum by 2020.

Major infrastructure projects such as Cross Rail and HS2 provide a catalyst for the creation of 30 year local plans to deliver new homes, jobs and growth across the UK.

The conference will feature highly respected housing experts on Design, Regulation, Planning, BIM and how to deliver more social homes for an ageing population.

Keynote speakers include :

- Sir Michael Lyons who will deliver the findings of the much awaited 2020 Lyons Housing Review
- Kate Hall, Head of HS2 at Arup, who will set out the opportunities for new homes, jobs and growth resulting from HS2.

Register Free

This event is free to house builders, housing associations, local authorities and supporters of the Modern Masonry Alliance. All other delegates will be invoiced £49.

Spaces are strictly limited.
