Laura Smith  
Head of Construction  
& Manufacturing - CBI

David Lunts  
Executive Director of  
Housing and Land - Greater  
London Authority

Paul Everall  
Chief Executive of Local  
Authority Building Control

Great Britain is now committed to build for the future, creating jobs, growth, a balanced economy and social inclusion.

De-regulation and new homes are at the heart of the Governments agenda. We now have a mandate to address the big issues such as land, planning, finance, skills and capacity. We need to remove the barriers to building the homes we need to meet the demands of our growing population.

Design versus performance, thermal bridging, fire, overheating and indoor quality are some of the many technical challenges we face. We must now make full use of our extensive knowledge and the digital revolution to build better homes for the consumer.

There has never been a more exciting time for our industry and this one day annual event will bring you right up to date with the latest developments.

Please book early as spaces are strictly limited.
